OBJECT OF THE GAME: Collect all four Purim characters.

MATERIALS NEEDED: game board, game cards, die, pawns

TO PLAY: Place character cards in four piles on the game board. Each player places a pawn on any "START". Players take turns rolling the die and moving clockwise the number of spaces rolled on the die. If a player lands on a face and does not have that character, then the player takes that character card from one of the four card piles. When a player has collected four different characters, that player is the winner.

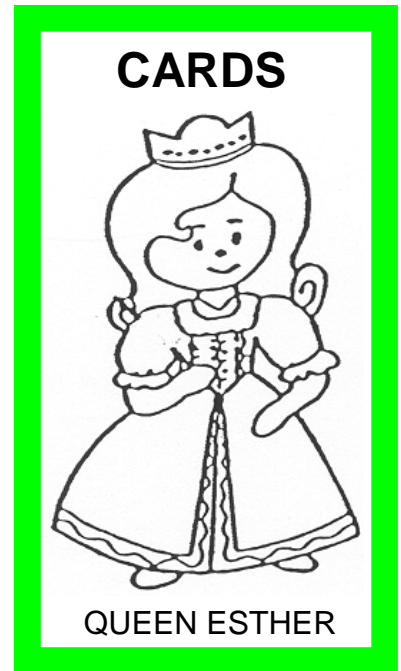

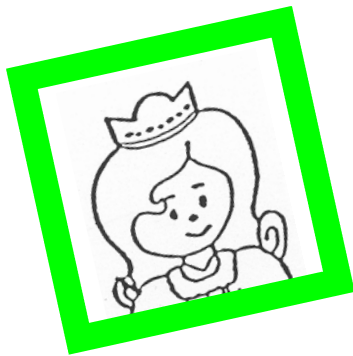

Optional: Play may continue until every player collects the four different characters.
