

# Shabbat Kiddush "Match Off"

## Card Game

(Compatible with Mishkan T'filah A Reform Siddur)

**Materials needed:** 1 deck of word cards for every two players (copy card sheets on card stock)

**Playing directions:-** Shuffle the deck of cards and divide into two equal piles.

- Place a pile of cards face down in front of each player.
- Each player turns the top card over, reads the word and tells how many syllables are in the word.
- The player with the most syllables in their word is the winner and gets to keep both cards.
- If both words have the same number of syllables, the players have a "Match Off."
- Match Off: Each player places one card face down in the center, turns the next card face up, reads the word and announces the number of syllables. The player with the most number of syllables wins and gets all the cards in the center. If the number of syllables is the same, the players have another "Match Off." If neither player wins after two "Match Offs", the players each take their own cards back and puts them face up with the other cards they have won.
- The game ends when a player is out of cards or after a set playing time (ex. 10 min).

**Winner:** - The player with most cards. (Place cards in two stacks next to each other. Press stacks down to see who has the most cards)
